Exellent game play graphics 10/10 would play again .....is what i would say if i hated gaming. Sense of The Devil more like wish I had the sense not to of bought this pile of dog♥♥♥♥♥♥of a game it throws the thousand achivements wich is kinda what I expected given the price but honestly it only held about 11 mins worth of playability for me wich is just absoluteley pathetic I expected a bit more going into the game... so yeah don't buy this pile of crap.. Got 1017 achievements in 13 minutes.. Kill things,repeat. This is not a game, it is a student project that accidentally made it to steam. One word - Atrocious.. Achievement simulator.

. Let's not get it twisted: this game isn't a AAA game; this game is for having a fun time killing demons and giant spiders.

I've played a few games by this developer. They remake the same game with different enemy and weapon designs. This isn't a bad thing in my book. I buy the games on sale and play the heck out of them while watch trashy reality tv on my other monitor screen.

It's a fun time and a great way to just relax and not overthink what you're doing.

I'm a simple person: I see demons and I shoot them. It's not hard and it's a great way to spend the bit of free time that I'm able to spend playing video games.

I'll keep buying these games and playing them.. Achievement simulator.

. Achievement Spam

---

Another misleading game, the description got nothing to do with the real game, and the only thing that sell is the easy chievos completion, and on that regard, the dev naild it, be it crap or not, the truth is he really sell his games, so i have to give him thumb up for the effort.. Kill things,repeat. What an insult! You put games like this on steam?!. Just another unfinished game with little to no replay value.

pros:

tutorial

easy achievements (for those in need)

cons:

very simple level design and an unreliable map,

enemies spawn usually right behind you or anywhere you wouldn't suspect them

very dark nights and annoying sounds,

missing collision data for the environment (trees)

. epic gaem for gamers that plae fortnite. By far the worst game by this developer. Absolute♥♥♥♥♥♥ I got the 10 achievements in less than 10 painful minutes and uninstalled the game instantly. I hate this. Awful. Never pay a cent for this cancer, the other similar games are much better and contain more achievements. Lags a bunch, barely works, overpowered enemies, no fun, no replayability, no benefits, no nothing except for anger.. Achievement spam crap. :!
